*Pacific Northwest National Laboratory (PNL) administers the ISO/IEC JTC 1/SC 32 Secretariat on behalf of ANSI

Appointment of Liaison from WG 2 to
OMG Business Object Domain Task Force

A liaison with OMG already exists. This action names an additional person to the liaison. The following is text for use in the letter from the SC 32 Secretariat to OMG:

OMG and ISO/IEC JTC 1/SC 32/WG 2 have a common interest in registering the data elements found in Business Objects. Design of Business Objects for exchange between organizations requires standardized data elements to cope with electronic commerce and electronic data interchange. Standardized data elements would also be useful to many OMG Domain Task Force areas.

SC 32/WG 2 offers Professor Hajime Horiuchi as liaison with the OMG Business Object Task Force. We believe that establishment of a common metadata registry would be very useful for the registration of Business Objects. We would like to collaborate in the ongoing OMG and SC 32/WG 2 efforts in this area.

Note that liaison already exists between SC 32/WG 2 and OMG in the domain of Health Care.
