## JTC 1/SC 32 Response to JTC 1 Resolution 23 from the Seoul, Korea 1999 Meeting

### "Resolution 23 – JTC 1 Performance Metrics

To be able to assess and manage its performance and to evaluate trends, JTC 1 instructs its SCs to provide by February 15, 2000 and in their future yearly Business Plan report to JTC 1 the following metrics:

- Average Meeting Attendance at Plenaries and Working Groups (where a plenary include a meeting of all working groups – if working groups do not meet during plenary meetings, a cumulative mean attendance to working group meeting should be used) (**Att. Plena.**)
- New Standards published (**NSP**)
- Total standards published (and currently valid) (**TSP**)
- Active projects (**AP**)
- New projects introduced(**NP**)

This data should be given for at least a five year period

The following table is a format to be used by each SC where the data in the last column is an estimate:

METRIC	1995	1996	1997	1998	1999
Attendance at Meetings					
New Standards Published					
Total Standards Published					
Active Projects					
New Projects					

JTC 1 instructs its Secretariat to collate and summarize for all of JTC 1 this information and publish it in a document.

**Unanimous"**
