Title: Project split for ISO/IEC 20944

SC32 N0785 previously provided the rationale for splitting ISO/IEC 20944 into multiple parts. At the SC32/WG2 meeting in Seoul in May 2002, additional parts were agreed to be required. These additional parts are as follows:

Project number	Part number	Part title
1.32.17.01.00.00	20944-0	Metadata registry interoperability and bindings – Part 0: Overview and framework
1.32.17.01.02.00	20944-2	Metadata registry interoperability and bindings – Part 2: Attribute mapping
1.32.17.01.63.00	20944-63	Metadata registry interoperability and bindings – Part 63: SOAP binding
1.32.17.01.64.00	20944-64	Metadata registry interoperability and bindings – Part 64: WSDL binding

These parts have been added to the WG2 programme of work in WG2-SEL-022, and passed by WG2 resolution in WG2-SEL-032.
